T2S Release 5.2: CR-722 "Upgrade of non-repudiation for U2A: GoSign Desktop"

For the attention of: **DCPs**

Re: **T2S Release 5.2:**
CR-722 "Upgrade of non-repudiation for U2A: GoSign Desktop"

Dear Client,

With reference to ON No. 12 of 22 February 2021 we confirm that CR-722 "Upgrade of non-repudiation for U2A: GoSign Desktop" has been included in release 5.2 and will be released in the external test environment (UTEST) on 24 September 2021, while the production release will take place concomitantly with release 5.2 on 20 November 2021, with effect from 22 November.

We will continue to publish as much technical information as possible regarding CR-722, as it arrives from the T2S operator, in the MT-X documentation section at: Home > Docs > T2S - Release Management > T2S releases - Incidents & Problems.

Please use the following contact address for requests for further information on CR-722:
