

# EURONEXT GEM Equity

**SOURCING VALUE GLOBALLY  
FOR RETAIL INVESTORS**

## **A new GEM is waiting to be discovered at Euronext**

Euronext Global Equity Market (GEM) – previously BIT GEM – is a trading platform launched in 2016 by Borsa Italiana. The platform has benefited from a seven-year track record of deep retail liquidity, and Euronext GEM migrated to Euronext's Optiq trading technology in March 2023.

## **The market for retail investors to trade pan-European and US shares**

**Euronext GEM is a one-stop-shop MTF enabling retail investors to trade pan-European and US stocks.**

Same features as Euronext's main regulated markets,

including microstructure, connectivity, matching engine, market surveillance and post-trade

Cleared and Settled in Euros (€)

respectively by Euronext Clearing (ex. CC&G) and Euronext Securities Milan (ex. Monte Titoli)

Trading After Hours (TAH)

running from 18:00 to 20:30 CET for Euronext GEM stocks and most liquid stocks of Euronext regulated markets

No additional membership fees nor market data fees

to trade on Euronext GEM and TAH

**TODAY**

**350+**

stocks available for trading across Europe and US

**40+**

trading members are already connected,

including retail brokers, global banks, and market making firms supporting on-book liquidity.

Check out the [list of Euronext GEM and TAH members](#) offering access and market markets providing liquidity.
