

# New Billing Platform for Euronext Securities clients

EURONEXT SECURITIES

September 2023

# Introducing a new platform for issuing invoices

## Launch from December 2023

Euronext Securities will launch a new platform to issue invoices for our clients from early December 2023 and onwards. This is driven by the desire to improve the service to our clients and ensure early compliance with the SCoRE\* standards.

We have dedicated substantial effort to our new billing platform, to ensure rigorous quality control and a seamless transition for our valued clients.

## Changes for Euronext Securities clients...

There will however be changes for our clients

- Look and feel of our invoices will change slightly – content will remain the same
- All invoices will be sent out electronically (pdf-files)
- Supporting data file will have new format and will be distributed with invoice

## ...and new features

The platform will also allow Euronext to offer new features, e.g.

- Delivery of invoice data in CAMT.077 format (XML)

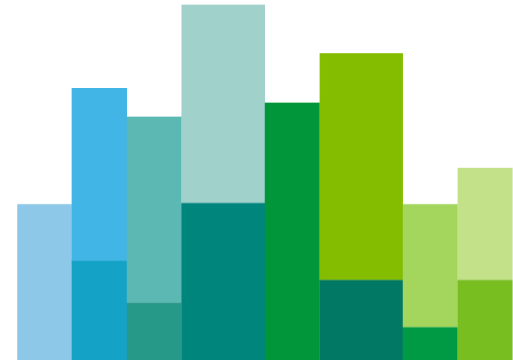

# Driving convergence to a global platform

A phased launch schedule

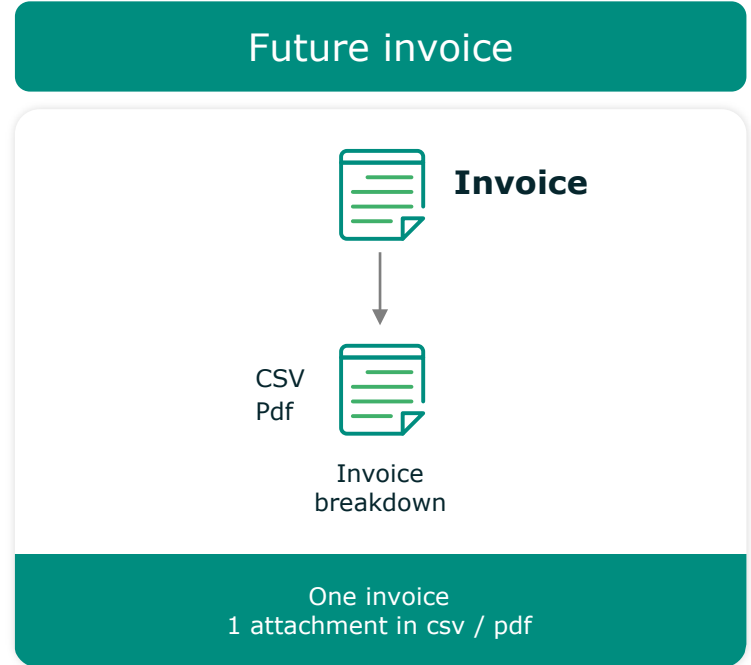

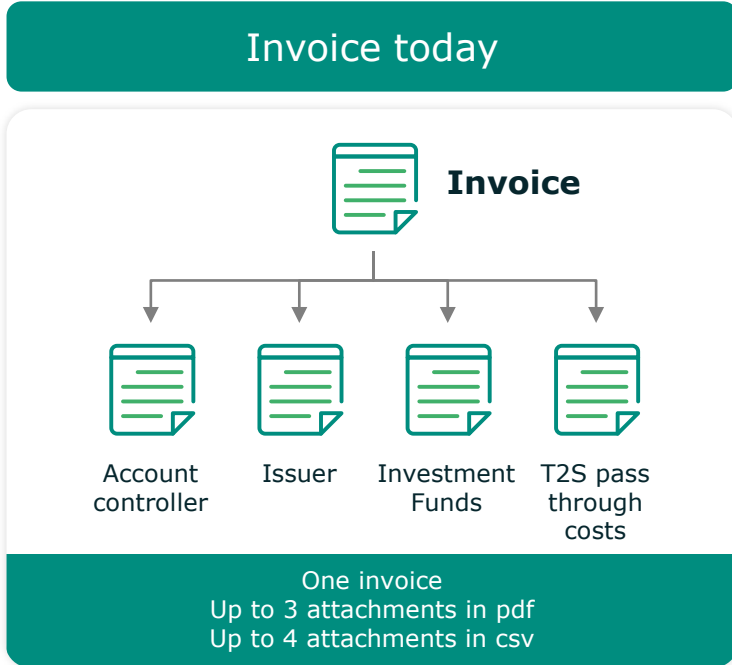

# 1. Changes to current invoices

---

# Enhanced data information

Several attachments will be merged into one attachment

## 2. Delivery of invoice data inCAMT.077 format

---

EURONEXT SECURITIES

# CAMT.077 available to clients by November 2023

## ECB has two-step implementation of CAMT.077

Deadline 1:  
April 2024

CAMT.077 mandatory for securities accounts under national central banks (NCBs) control

Deadline 2:  
November 2025

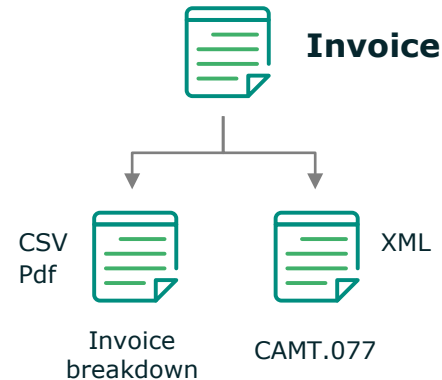

CAMT.077 must be available to all clients (if desired by client)

Euronext will offer CAMT.077 to;

1. All ES-CPH and ES-PTO clients from November 2023
2. All ES-MIL and ES-OSL in H2 2024

## Future invoice

One invoice  
1 attachment in csv / pdf  
CAMT.077 message (if requested by client)

# The CAMT.077 provides greater billing information on securities accounts

## Level 1 – Aggregated invoice

- Gives the client the full overview of Service item (code and name), Quantity per item, Price per item and amount per item

Same data as in the invoice

## Level 2 – Account controller

- Gives the client the possibility to identify the costs per account controller
- Gives the client the possibility to consolidate the invoice as level 2 will always aggregate into Level 1 quantities and amounts

## Level 3 – Responsible Issuer

- Gives the client the possibility to identify the costs related to the issuer which has used the given service item
- Gives the client the possibility to consolidate level 2 in the sense that service items present in level 3 will always aggregate to those of level 2

## Level 4 – Securities account

- Gives the client the possibility to identify the costs related to the individual securities accounts, which has used the given service item
- The client can aggregate Level 4 into Levels 2 and 3 if required

The current CSV-file

CAMT.077

(only Level 1 and Level 4)

# Example of the CAMT.077 message structure

Field	Definition	Example data
