1. INTRODUCTION

1.1 STANDARD FEES AND CHARGES

This publication sets out the subscriptions, standard fees and charges for products and services available on Euronext's Derivatives Markets. These may be subject to change during the course of the year. All cleared contracts are booked onto one of the accounts of the assigned member. The assigned member will be charged a trading fee for those contracts, based on, inter alia, the product, the account type and the role of the member.

1.2 CLEARING FEES AND CHARGES

Our derivatives markets are cleared in Paris by LCH S.A.

For questions about clearing fees related to products traded on the Amsterdam, Brussels, Lisbon and Paris derivatives markets, please contact LCH S.A. at www.lch.com.

1.3 WHOLESALE TRADE FACILITY

The wholesale trade facility comprises a diverse set of trade types: AtomX, Against Actual Facility, Asset Allocation Facility, Basis Trade Facility, Exchange for Swap, Guaranteed Cross, Large-in-Scale Trade Facility¹ and Request for Cross Facility. Not all facilities are available for all products: the Against Actual Facility, Asset Allocation Facility and Exchange for Swap are not available for Financial Derivatives. Annexe one of the Trading Procedures shows which facilities are available for which products. The Central Order Book fees also apply to trades executed via one of the wholesale facilities unless otherwise specified. The trading fees for standard contracts reported via AtomX are equal to the Large-in-Scale Facility fees.

1.4 MAXIMUM FEE

For some products a maximum fee per order or a maximum fee per posting is applied.

The maximum fee order is applied to trades that: are traded on the same date, are booked on the account of the same member, have the same trading symbol (contract code), have the same account type (Client, House or Market Maker), have the same Position Account, have the same Order Number, have the same Customer Reference. When a trade is entered via the Large-in-Scale Package facility, the Package-ID is used instead of the Order Number. In order to ensure that the maximum order fee is applied correctly to Large-in-Scale Packages involving orders with more than one leg, the Package ID should be completed in the same way, i.e. using the same characters, upper case letters and lower case letters.

The maximum fee per posting is applied per individual posting. The posting of a trade leg is the process by which the Clearing Member registers trade legs, or a part of it, either for its own account or for a third party account, on one of the Position Accounts opened in the Clearing Member's name in the Clearing System.

If you have any questions concerning the content of this guide or would like further information on Euronext Derivatives Market services, please contact your local relationship manager on ccc@euronext.com.

¹ The former Block Trade and Prof Transaction facilities have been renamed into Large-in-Scale Trade (replaces Block Trades) and Large-in-Scale Package (replaces Prof Transactions), both are also referred as Large-in-Scale Trade Facility (as announced in info-flash IF150929DE and IF160122DE_2)

2. COMMODITY AND CURRENCY DERIVATIVES

2.1 COMMODITY FUTURES AND OPTIONS CONTRACTS

This section sets out the fees for Euronext's commodity derivatives products available via the central order book.

- Milling Wheat
- Corn
- Rapeseed
- Rapeseed Meal
- Rapeseed Oil
- Skimmed Milk Powder
- Unsalted Lactic Butter
- Sweet Whey Food Grade Powder
- Residential Wood Pellets
- UAN 30 Fertiliser

All fees are expressed in € (Euros) per lot per side.

FUTURES AND OPTIONS CONTRACT	TRADING
Futures – Milling Wheat, Rapeseed, Rapeseed Meal, Rapeseed Oil, Corn, Skimmed Milk Powder, Unsalted Lactic Butter, Sweet Whey Food Grade Powder, Residential Wood Pellets, UAN 30 Fertiliser	€0.25
Options – Milling Wheat, Rapeseed, Rapeseed Meal, Rapeseed Oil, Corn	€0.25

FUTURES CONTRACT - WHOLESALE TRADES	TRADING
Exchange for Swaps, Against Actuals, Exchange of Options for Options	€0.25

Notes:

Milling Wheat, Rapeseed, Corn, Dairy, Residential Wood Pellets and UAN 30 Fertiliser contracts are often settled using “alternative delivery procedures” – see contract terms for further details.

2.2 CERES, A NEW INCENTIVE PROGRAMME ON PARIS COMMODITY CONTRACTS

The details of the Ceres incentive programme on milling wheat, corn, rapeseed, rapeseed oil, rapeseed meal, UAN30, residential wood pellets commodity derivatives contracts are as follows:

- 36 month Ceres programme, launched 2 January 2019;
- Open to all NEW proprietary traders;
- Applicable to both Paris Commodities Futures and Options commodity contracts;
- All NEW traders (never previously registered in a NMP programme) to get a trading fee of €0.09/lot;
- All registered NMPs in Year 1 of the programme ending 31 December 2018 to transfer into higher trading fee bracket of €0.11/lot for products already traded in NMP but €0.09/lot for any new product they trade;
- All registered NMPs in Year 2 of current programme ending 31 December 2018 to transfer into higher trading fee bracket of €0.14/lot.
- All registered NMPs registering for new products to get a trading fee of €0.09/lot.

2.3 COMMODITY OPTION STRATEGY FEE

The conditions for qualification for this strategy fee are:

- The strategy fee will apply only to multi-leg options strategy trades (2 legs or more)
- For an options strategy including futures, the strategy fee only applies if there is more than one options leg component (i.e. 2 option legs minimum)
- All strategies are to be booked in the same clearing position account

Euronext will apply the strategy fee as follows:

- For a two leg strategy, 1 leg will benefit from a trading fee of €0
- For a three leg strategy, 1 leg will benefit from a trading fee of €0
- For a four leg strategy, 2 legs will benefit from a trading fee of €0

The term “leg” is used to define one of the components of the option strategy. As an example, a butterfly strategy is composed of 3 strikes but 4 legs.

The list of all Euronext recognised commodity options strategies and corresponding strategy fee is available via the following link:

Client fee rebate scheme on AEX-index® options, Individual Equity Options and ETF options (Info-Flash: IF181127DE)

- For trades in AEX-Index options (Monthly, Weekly and Daily options) that are booked on the client account, Euronext will rebate 100% of the exchange trading fees for all trades above the threshold of 100,000 lots per member position account per month (excluding trades booked through the Large-in-Scale Facility and AtomX).
- For trades in Individual Equity Options (IEOs) and ETF options listed on the Amsterdam derivatives market that are booked on the client account, Euronext will rebate 100% of the exchange trading fees for all trades above the threshold of 200,000 lots per member position account per month (excluding trades booked through the Large-in-Scale Facility and AtomX).
- For trades below the threshold, the existing fee scheme will be applicable.
- Trades booked through the Large-in-Scale Facility and AtomX will not be eligible for the fee rebate.
- The fee rebate schemes are open to all trading members trading via the Client account. The fee rebate schemes will be effective from 1 January 2019 and is subject to cancellation with one month's notice at the discretion of Euronext and will automatically terminate on 31 December 2019.

Guidelines for adjusting the trading fee when contract specifications are changed due to corporate actions (Amsterdam Notice 06-044)

Contract specifications or a position can be adjusted due to corporate actions. The applicable trading fee can be adjusted after certain corporate actions in order to counter the extra costs that occur when an enlarged position is closed or to offer the possibility to close contracts with a non-standard contract size against reduced costs.

There is a large number of different corporate actions that cause adjustments to existing contracts or positions. Most of these adjustments can be classified in three main groups; each group has a specific fee adjustment. These three groups are:

Adjustment	Description	Example corporate action
Multiplication position	The open interest is multiplied by using the ratio	Stock split
O-class	When application of the ratio results in a non-standard number of underlying shares (lot size), an O-class is created	Rights issue, special dividend
Basket of shares	The original underlying share is substituted by a package of shares of different companies. For this type of adjustment an O-class with more than 1 underlying value (the basket) can be created.	Spin off, demerger

The guidelines for adjusting the trading fee due to corporate actions are described below.

Non-member transactions (client account)

	Euronext Trading fee per contract									
	Fee adjustment	Period of adjustment								
Multiplication position	Fee divided by split factor for closing transaction	Until and including the expiry day of the second month in the quarterly cycle (March, June, September, December) that is listed at time of the corporate action.								
O-class	<table><tr><td><u>Lot size</u></td><td><u>Fee for closing transaction</u></td></tr><tr><td>≤ 40</td><td>no fee</td></tr><tr><td>41 ≤ 80</td><td>fee divided by 2</td></tr><tr><td>81 ≤ 100</td><td>fee unchanged</td></tr></table>	<u>Lot size</u>	<u>Fee for closing transaction</u>	≤ 40	no fee	41 ≤ 80	fee divided by 2	81 ≤ 100	fee unchanged	Until and including the expiry day of the second month in the quarterly cycle (March, June, September, December) that is listed at time of the corporate action.

		<div><u>For Market Makers:</u> until the end of the lifetime of the O-class</div>
Basket of shares	No fee adjustment	Not applicable

Notes:

- The maximum fee per order remains unchanged.
- For contracts with a standard lot size larger than 100, the brackets for O-classes are applied proportionally.
- When a corporate action requires a fee adjustment, the exact trading fee adjustment will be announced via a Corporate Action notice. Specific circumstances or unforeseen types of corporate action may cause Euronext to deviate from the guidelines.
- Trading fees will initially be charged at the standard rate and the relevant amount will be rebated one month in arrears.

¹ See section 3.1 for fees for Single Stock Futures and Single Stock Dividend Futures transactions on all markets

² The trading fee per contract depends on the size of the trade; the fee for each band will be applied where appropriate. For example, for a trade in European style options with a trade size of 50,500 lots, the following trading fee is charged: €0.035 up to 999 lots, €0.025 for the next 49,000 lots, and €0.005 for the last 501 lots. In the case of a strategy trade, the trading fee is calculated for each individual leg of the strategy trade separately.

³ Including spotlight options

⁴ The maximum is calculated as follows: 1% x premium x contract size

FTSEurofirst 80 and FTSEurofirst 100 Index Future	€10 per index point	€0.20
FTSE EPRA/NAREIT Index Future (Developed Europe and Euro zone)	€10 per index point	€0.50

PACK OMEGA - NON MEMBERS PILOT SCHEME FOR FRENCH INDIVIDUAL EQUITY OPTIONS

ELIGIBILITY FOR PACK OMEGA

In order to benefit from the pilot “Omega” fee scheme, eligible participants must

- 1) be non-Euronext Members throughout the duration of the scheme;
- 2) trade Euronext French individual equity options (American style) through either the Central Order Book or via Euronext’s Wholesale Facilities with a continuous minimum monthly volume of 20,000 lots¹ (the ‘volume threshold’) for one year upon subscription to the scheme;

The list of French Individual Equity Options covered by the scheme is available on request and on Euronext’s website². Flex and Spotlight contracts are excluded from the calculation of the above volume threshold.

PACK OMEGA FEE SCHEME

The following fees will apply to trading activity on French Individual Equity Options (American style), by Pack Omega participants, provided that the continuous volume threshold of 20,000 lots per month is met :

ACCOUNT	FEE	TRADING FEE
Client account	Trade size ≤1,667 contracts – fee per contract	€0.067
	Trade size >1,667 contracts – fee per posting	€112

DETAILS

- Non-Member firms wishing to participate in the Omega pilot scheme will enter into a bilateral agreement with Euronext. In the course of the Pack Omega, the order flow of the non-member has to be isolated from the global flow of the Euronext member. In this context, the Non-Member hereby allows Euronext to use its alphanumerical Client ID information (list of LEI code to be provided).
- Through Omega Pack, Euronext will continue to invoice the Member firm directly.
- The Euronext Member will remain legally responsible for the transmission of orders to Euronext and for all relevant risk controls, as of today.
- The Euronext Member further represents and certifies that it will attribute dedicated Client ID “Short Code(s)” (as defined under the MiFID 2 regulation) on each individual New Order to Euronext Derivatives markets to the Pack Omega Non-Member in order for Euronext to identify the activity attributed to the Omega participant.

¹ The threshold is subject to change at Euronext’s discretion on one month’s notice

² Filter by location, choosing ‘Paris’

- The scheme is Clearer-agnostic. In the event that two or more Member route flow from the same firm, Euronext will invoice each Member separately in proportion to the volumes of the underlying Non-Member firm routed via the member(s). The underlying firm's volume can be aggregated across multiple for the purpose of meeting the threshold as defined.
- In the event that a non-member firm does not achieve the volume threshold as defined, then the Omega pilot fee scheme will not apply and its trading activities will be charged as the regular Euronext Derivatives trading fee.
- In the event that a non-member firm does not achieve the volume threshold as defined for two consecutive months then the Omega pilot fee scheme will not apply and the Omega scheme will be terminated.
- The Member will be provided with a Omega trade report sent by email on the next trading day.
- Any discrepancy between the trading activity shown in the report and the trading activity allegedly performed by the Member must be notified by the Responsible Person at the Member Firm within two trading days after the day of the receipt of the report. Once this time has expired, no notification shall be considered by Euronext. The Euronext email address for the notification is marketmaker@euronext.com.
- Any rebate will be granted only in the case that the discrepancy is recognised by Euronext.
- Note that in such circumstances that the discrepancy is recognised after the end of the month, the rebate will be corrected in the next month.
- Euronext reserves the right to amend or terminate the Omega scheme at any time during the scheme on one month's notice.

4. MARKET MAKER AND LIQUIDITY PROVIDER TRADING FEES

4.1 STANDARD FEES AND CHARGES

This publication sets out the subscriptions, standard fees and charges applicable to Market Maker Agreement, Market Maker Scheme or Liquidity Provider Programme for products and services available on Euronext's Derivatives Markets. These may be subject to change during the course of the year. All cleared contracts are booked onto one of the accounts of the assigned member. The assigned member will be charged a trading fee for those contracts, based on, inter alia, the product and the account type.

4.2 CLEARING FEES

For several products Market Makers and or Liquidity Providers may also benefit from dedicated clearing fees. For questions about clearing fees related to products traded on the Amsterdam, Brussels, Lisbon and Paris derivatives markets, please contact LCH S.A. at www.lch.com.

4.3 PERFORMANCE RELATED TRADING FEES

Euronext may apply a dedicated trading fee scheme to Market Makers / Liquidity Providers who show a good monthly performance result¹. For each applicable product (type) a set of performance bands has been defined to determine the final fee per lot for the specific calendar month. For most products the Band 2 performance fee will be calculated as a linear function of the difference in fee between Band 1 and Band 3 divided by the difference in performance percentage points between Band 1 and Band 3.

The same dedicated trading fee may also apply on wholesale transactions depending on the specific Market Maker Scheme or Liquidity Provider Programme definitions.

In general, unless otherwise specified for the specific product, trading fees will initially be charged at the Band 1 (minimum) rate and the relevant amount will be surcharged one month in arrears, depending on the Market Maker's or Liquidity Provider's performance against the contractually defined performance bands.

4.4 MARKET MAKER ACCOUNT

Members participating in any Market Maker Agreement, Market Maker Scheme or liquidity Provider Programme will be issued with an "M" account in respect of their assigned contract and will be required to book Market Making / Liquidity Providing transactions to this account. They will be required to flag all relevant orders and quotes on the Euronext Order Entry systems with the "M" account. Also, to be eligible for the dedicated trading fee, if applicable, trades should be booked on the Market Maker account. The "M" account at exchange level corresponds to the T origin account at LCH.

4.5 PROCEDURE FOR OMISSION

The Market Maker and the Liquidity Provider are fully responsible for entering the correct settings in the system to identify orders as MM/LP orders.

Market Makers and Liquidity Providers are by exception allowed to file for a misflag request, thereby asking Euronext for a reimbursement of relevant trading fees. Such requests are however to be made exclusively on

¹ Not applicable on all Market Maker Schemes/Liquidity Provider Programmes.

an exceptional basis and they must be duly evidenced. Any such request must follow the procedure below in order to be considered and processed by Euronext.

1. To notify Euronext of a misflag and any related request, the Market Maker or Liquidity Provider must send a Misflag Request Form with return receipt to its usual Euronext account manager. Templates of the Misflag Request Form to be used are available online at: <https://www.euronext.com/en/membership/liquidity-providers-and-market-makers>, or through the account manager.
2. The Misflag Request Form must be sent within two months of the relevant invoice date with all relevant information so as to allow Euronext to process it. Information provided shall in particular include details (IT traces) of all orders sent via its trading systems during the relevant period to which the misflag request relates.

Any misflag of orders is a violation of the Euronext Rule Book, and as such is duly analysed through a dedicated committee. Also note that in case of approval of the misflag, Euronext will remove will remove a part of the overall amount corresponding to the violation (at least 10% the first time and more depending on the cases).
