Optiq® Migration Phase 3

To the attention of:	Derivatives clearing section
Priority:	High
Topic:	Optiq® Migration Phase 3 – Derivatives

Following the previous [Market Notice](#), which informed about key migration aspects for Clearing members and Software Vendors, we would like to advise that the Euronext mapping file for IDEM products between SOLA and Optiq® Product Codes has been updated reflecting several Product Description changes in Optiq®. This is a narrative description of the product with no technical impact in the clearing system.

As previously communicated, we reiterate there is no expected change on contract/product codification in the clearing system with the Optiq® migration.

Please find [here](#) the updated Product Code mapping file.
