## X-COM Schedule modification

---

**For the attention of:**

**Priority:**

**Re:**

**X-COM Participants**

**MEDIUM**

**Change in schedule hours**

Dear Client,

With respect to what was agreed in the User Group on 13 December 2017, the following change in the scheduling of the processes has been implemented for the X-COM service:

- Postpone settlement cut-off for ACS (automatic collateral search) by 30 minutes, until 17:30
- Eliminate the advance at 14.30 of the sending of MT569 end of day swift messages on monthly closing

Furthermore, in order to optimise internal X-COM processes, the end of day mark-to-market cycle, currently scheduled for 20:00, is brought forward by 15 minutes to 19:45. Consequently, the production of MT569 end-of-day swift messages is also brought forward by 15 minutes.

All the changes have been in force since 12 January 2018, as published in the [X-COM Service Communications](#)
