T2S – Recertification for DC Actors

Dear DCP Clients,

Please be informed that following the deployment of CR466 (so called non repudation origin) as part of the announced T2S release 1.1, ECB requires to re-execute the certification for all DC Actors (on securities side, these are CSDs and DCPs).

The completion of this mandatory task must occur in the test environments and within the deadlines reported in the table below:

Test Environment	Actors involved	Start of certification test	Deadline for certification
EAC	CSD	10/11/2016	15/01/2016
MIG2	DCP	30/11/2015	15/02/2016
UTEST	DCP	16/01/2016	15/02/2016

All DCPs can find the in MT-X Platform - T2S Change Management - Download session the following technical documents related to the CR466

- t2s_0466_bfd.pdf
- NRO_Technical_Documentation_V 1 3_2015-10-13.doc
- NRO - applet download failure - PBI000000158291_2.pdf

Market Notice

25 November 2015

And the following ones reporting details for re-certification:

- Template 1 Release 1.1. Certification testing report for CSDs and Securi.xls
- md_2013-11-07_eurosystem_certification_test_cases_v1_0.pdf

In this latter 2 documents, DCP will notice that the only certification test case to be re-executed will be CERT_11 in U2A mode. Evidences will be provided to Monte Titoli, in electronic format to Mt-t2s-test@lseq.com. And they are the same as per the initial certification test (please refer to md_2013-11-07_eurosystem_certification_test_cases_v1_0.pdf)

Should you require further clarification please contact via email Mt-t2s-test@lseq.com.
