T2S: pre-prod test environment unavailable from 14th to 24th December 2015

Dear Clients,

Please be informed that from 14th to 24th December 2015 Monte Titoli pre-prod test environment (T2) will be disconnected from all trading market test environments .

This unavailability is required in order to carry out a session of T2S collateral tests dedicated to CCPs which requires an high degree of isolation from external interferences.

Should you require further clarification please contact Mt-t2s-test@lseg.com.
