T2S release 1.2.3

For the attention of:

DCPs

Priority:

HIGH

Re:

T2S release 1.2.3

Dear Client,

Monte Titoli is pleased to inform you that the upcoming release 1.2.3 of T2S, which was released for external testing (Utest) on 24.03.2017, will be released into production on 8/4/2017, with effect from 10 April.

The release in question contains fixes for 7 defects, none of which were reported by Monte Titoli, that were found in the T2S production environment by other CSDs.

A folder dedicated to the 1.2.3 release has been created in the MT-X documentation section.

It contains the form "R1.2.3 PBI content v.1.0.xls", which contains a description of each problem with information and references indicated by the ECB.
