## Preparation of Community T2S testing

---

Dear Client,

we would like to inform you that on February 20<sup>th</sup>, 2015, as is known, all Participants' configuration data included in Client Migration Platform (CLIMP T3 environment) and used for the future production environment, will be migrated to Monte Titoli T1 environment where Community T2S testing activity will be carried out.

**Therefore, the current CLIMP T3 environment will not be available to insert changes and/or add data starting from 10.00 am (CET) of February 20<sup>th</sup>, 2015, to February 23<sup>rd</sup>, 2015.**

As of March 3<sup>rd</sup>, in T1 testing environment, it will be available a new release of Client Migration Platform, which will embrace configuration's changes directly in testing environment.

Therefore, it reminds that:

- As of February 23<sup>rd</sup>, it will be possible to change configuration data in CLIMP T3 environment for production purposes.
- As of March 3<sup>rd</sup>, it will be possible to change configuration data in CLIMP T1 environment for testing purposes.

# Market Notice

19 February 2015

Possible necessary changes in one (T3) and in the other environment (T1) have to be inserted one by one by the client.

Credentials (UserID) to access CLIMP T1, <https://mtservices.montetitoli.it/prod>, are the same already used for MT-X production. At the first access the system requests to change password.

As specified in the Testing Plan, current balances in production environment at closing date of 26/02 will be available in testing environment. Due to balances' migration activity, testing environment will go full speed for testing activities after March 3<sup>rd</sup>, 2015. It is important to notice that neither X-TRM operations, nor Express II settlement instructions will be migrated.

For further information relating to environments' access, please contact:
