T2S –“T2S production defects” publication

Dear Client,

As agreed in the PTTUG meeting held on October 19th for facilitating the test execution, we inform you that Monte Titoli has published, in the documentary section of MT-X platform (Change Management/ T2S -Production defects PBI) the T2S production defects 10-26-2015 (MT PBI detailed) document, containing a detailed description of the defects raised by Monte Titoli.

We specify that we are investigating with T2S operators to better define the impact of PBI 157772 defect, for which will follow further updates.

For further information, please contact the following e-mail address:
